PROBLEM

SOLUTIONS

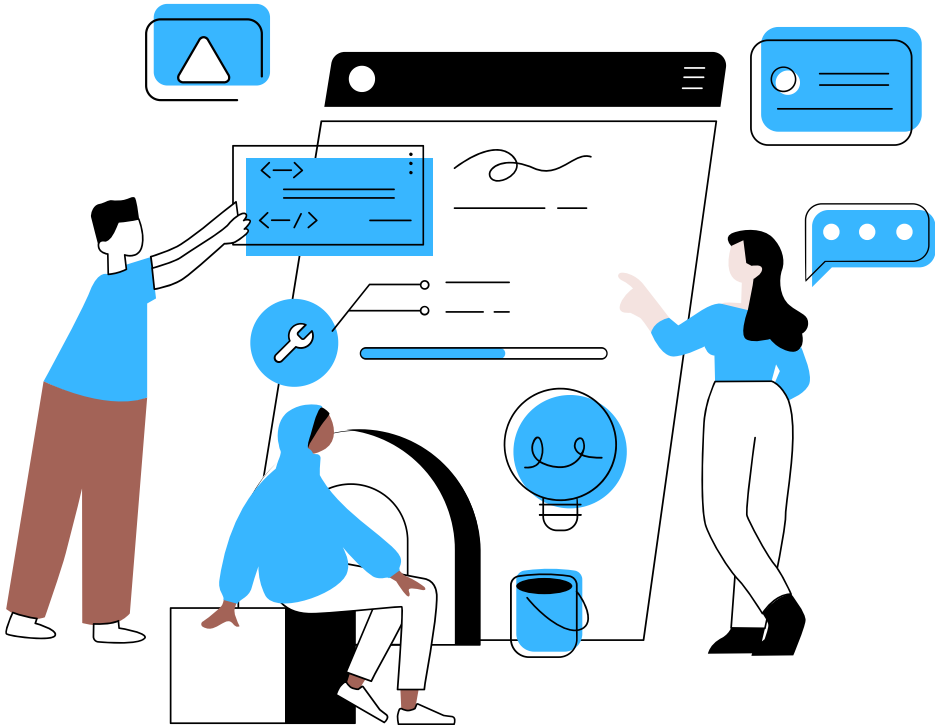

**Web and Mobile
Application**

**Artificial Intelligence
Technology**

HOW TO FIX?

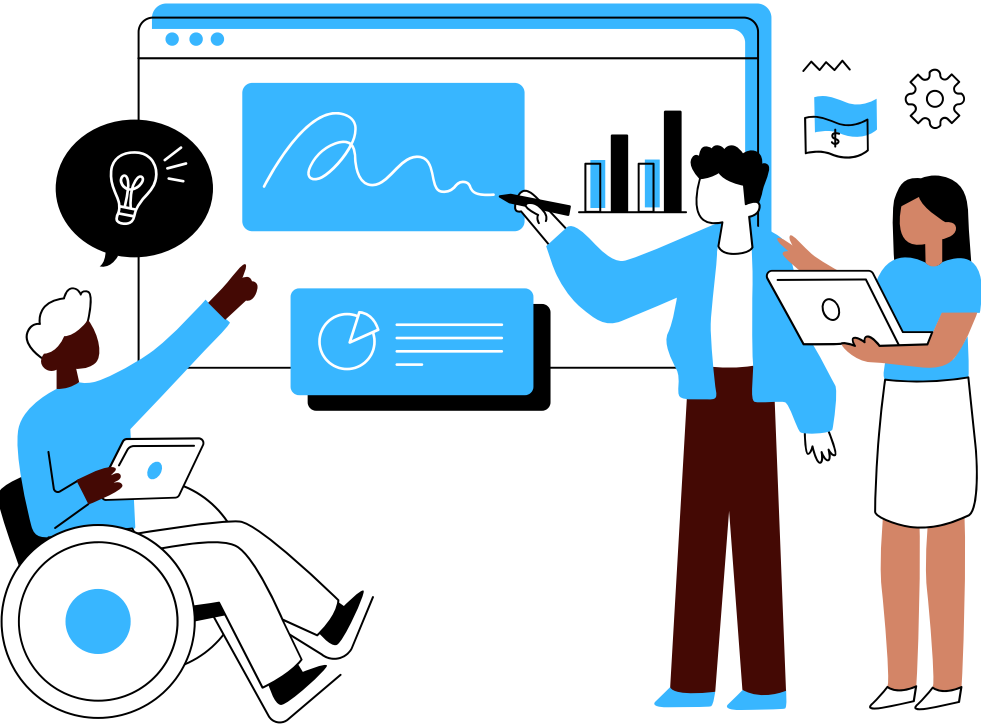

Financial

Online dues payment
and accounting system

Communication

Announcements and news section
Survey and feedback page

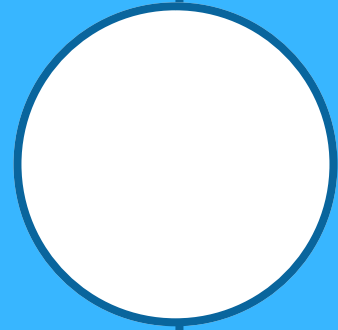

Social

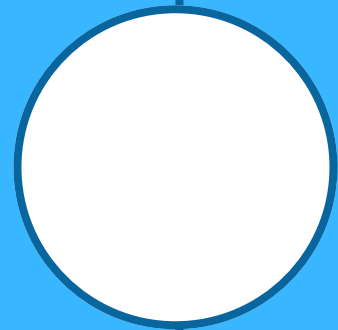

Ordering online
Social Dashboard module

Global Competitors

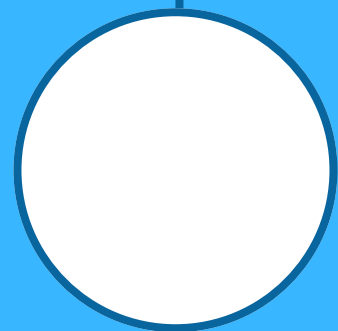

Unlike our competitors, we aim to provide a better service by using artificial intelligence technology.

We aim to guide the market at home and abroad by developing the deficiencies of currently used applications.

We want to get better user experiences considering the feedback of existing applications.
