Problem

2

1

People who want to build their own start-up often struggle to find the idea and team.

2

While beginners may not be able to deliver the project securely within the desired timeframe, professional teams that can execute projects often come with high costs.

3

Furthermore, for investors, engaging in conversations with numerous entrepreneurs can be a lengthy and arduous process.

Solution

1

We will provide the necessary infrastructure for idea owners to execute their projects, establish teams through our company, and ensure their supervision

2

We guarantee 100% customer satisfaction and on-time delivery for paid projects.

3

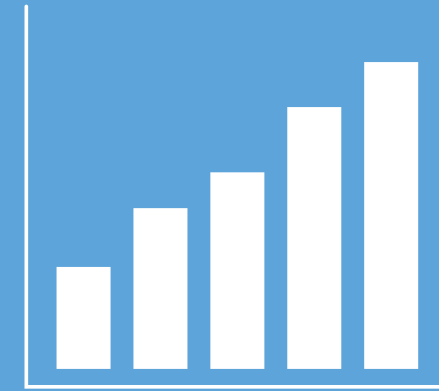

We offer a variety of investment options that have been thoroughly researched and prepared for investors.

What Can We Provide?

Reliable and fast delivery.

A project pool to be presented to investors.

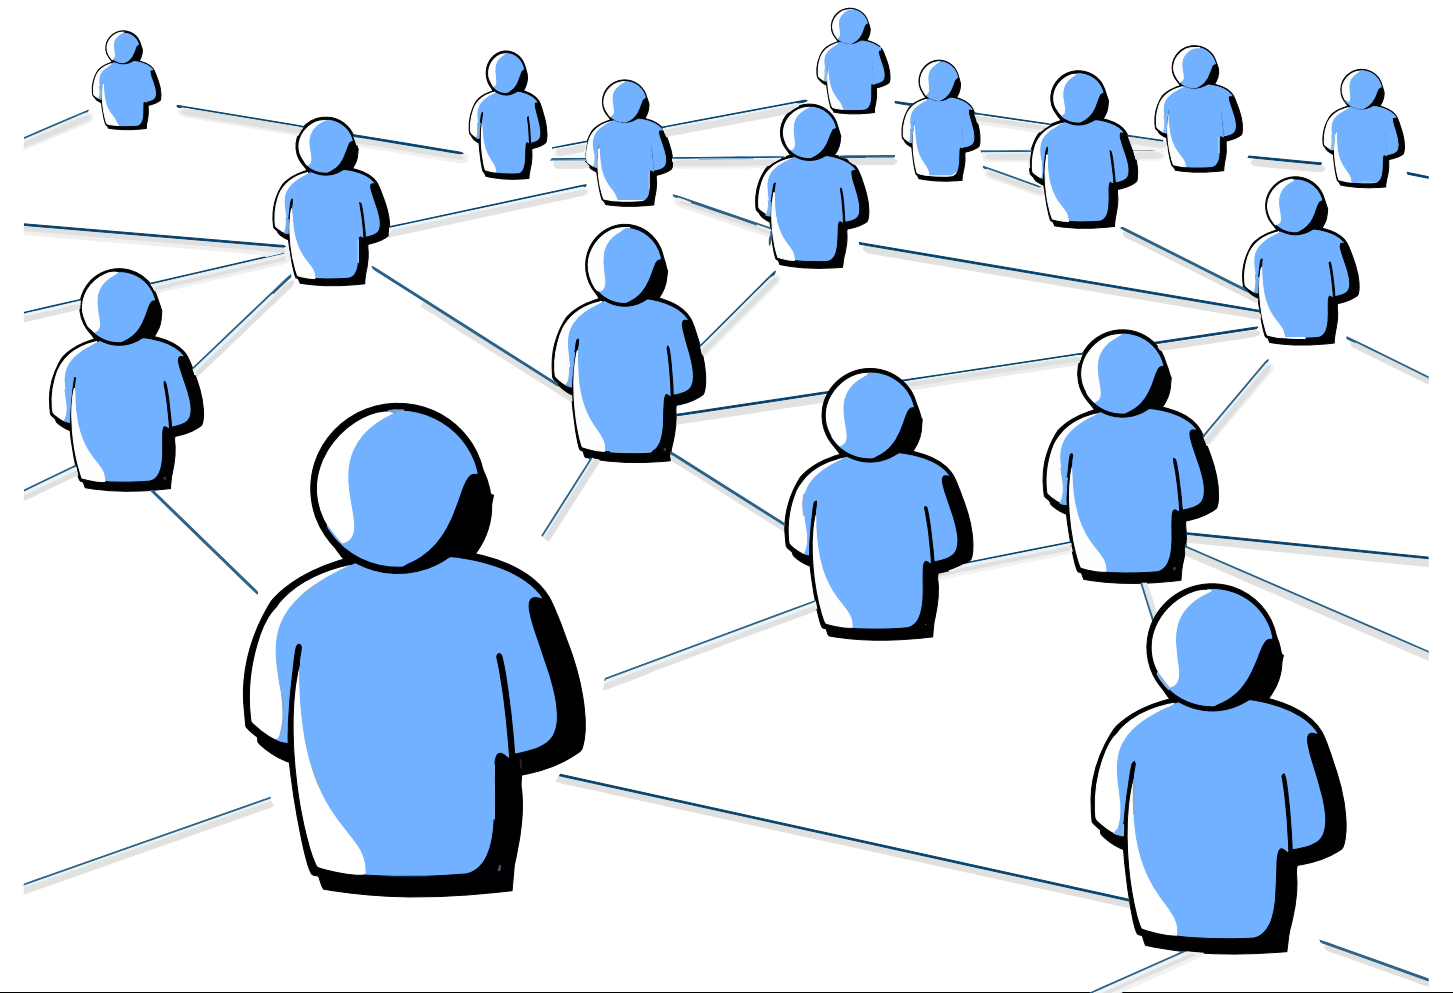

Reducing project costs to a minimum.

Taking a direct and active role in team building and management process.

Target Audience

The general target audience of our application includes the following:

JOB SEEKERS

Project enthusiasts and project aspirants

INVESTORS

Investors looking for game-changing projects

In **the United States**, 600.000 to 700.000 **start-ups** are established each year. However, 25% of these start-ups fail to reach their third year. Our goal is to **bring together** this diverse range of start-ups and investors seeking projects under one roof, providing not only intermediation but also acting as **guarantors** for the projects.
