

Best movies for you!

What Should I Watch?

Company Overview

Junius Tech, is an innovative and evolving technology company.

Project Overview

What Should I Watch is an artificial intelligence-supported movie recommendation platform that allows users to express their emotional states, interests, and moods, and provides personalized film suggestions accordingly.

Problem

The challenge of finding the right movie to watch

Spending
long time

Disappointment

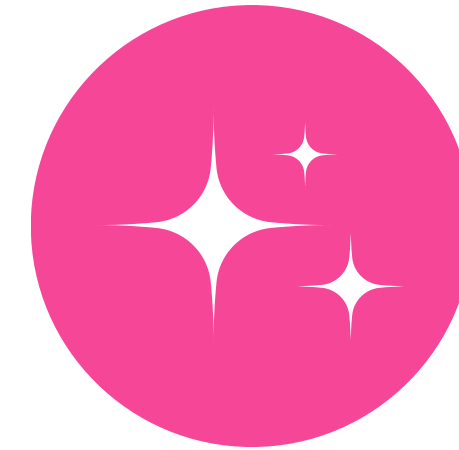

For many users, finding the right movie can be a challenging and time-consuming process. Additionally, this process can result in disappointment for users.

Solutions

Observation

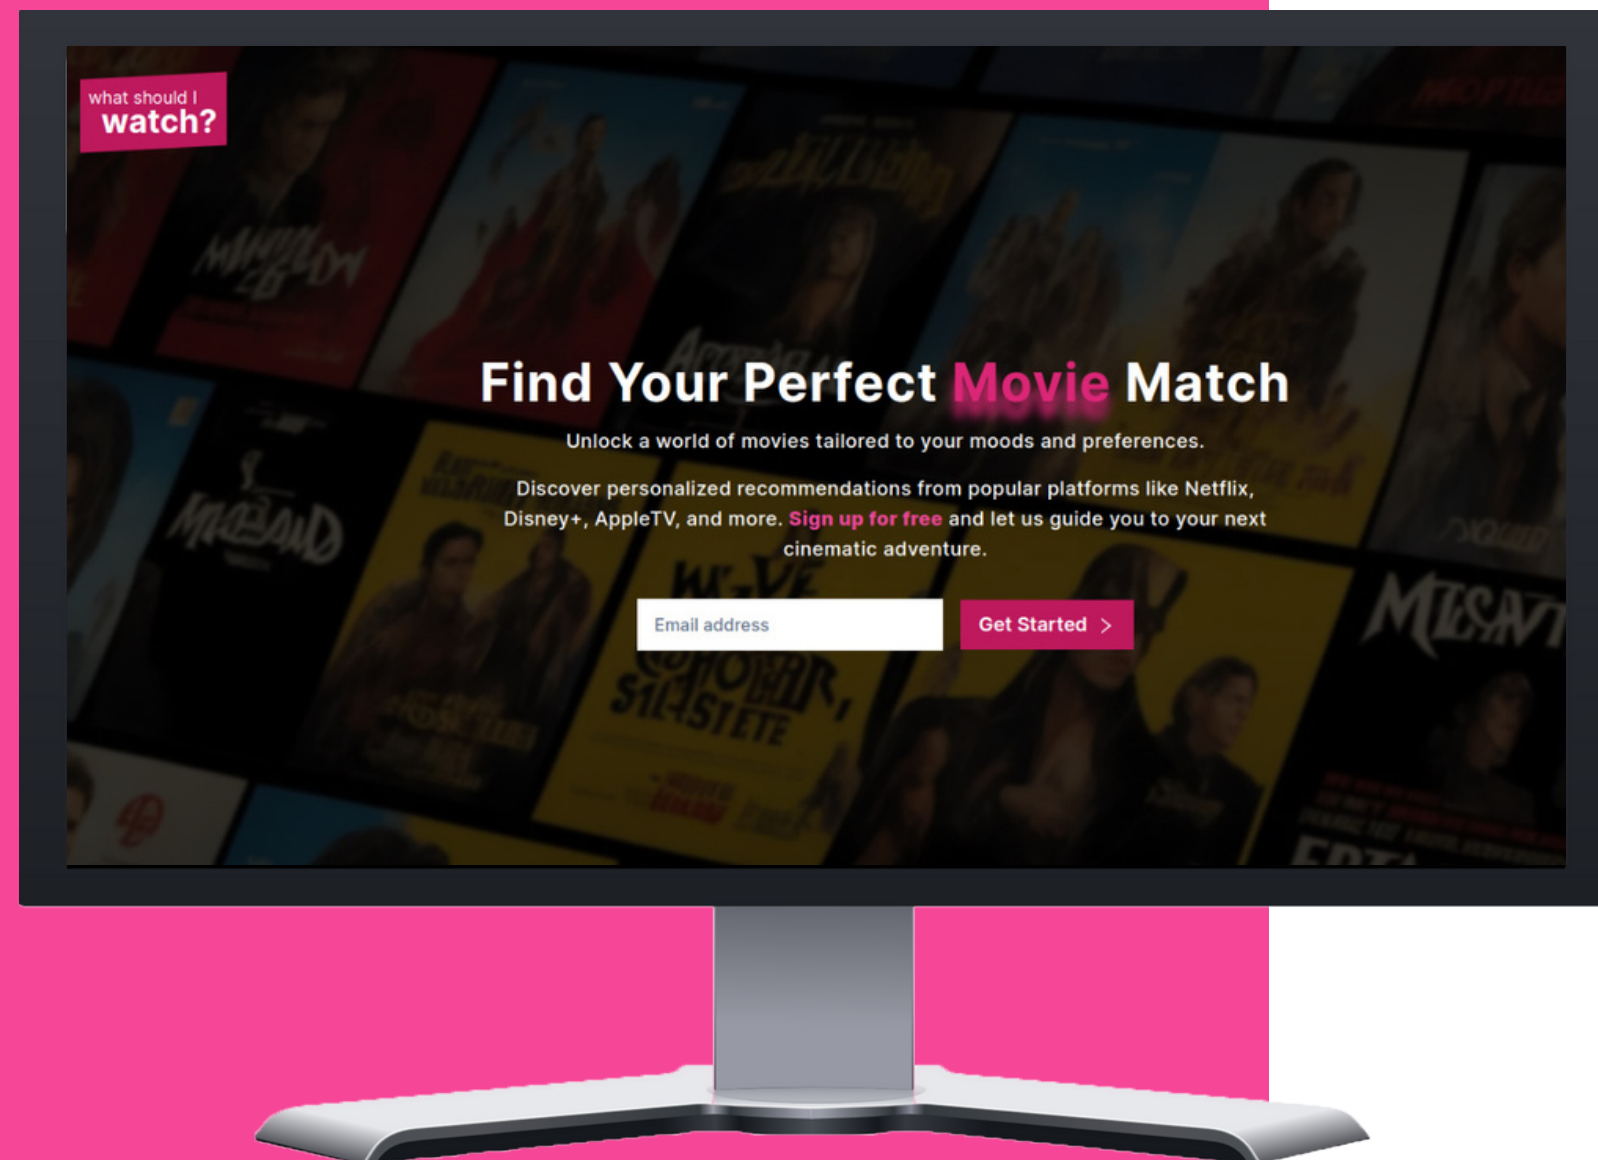

Analyzing users' interests,
moods, and preferred
choices

Suggestion

Providing users with a
personalized experience to offer
more satisfying
recommendations

What Can We Provide?

AI-supported analysis system

A system that accurately analyzes users' preferences

AI-supported suggestion system

User-centric, quickly generated movie recommendations

Time savings and consistency

Fast and consistent service provided to users

**What Should I
Watch**

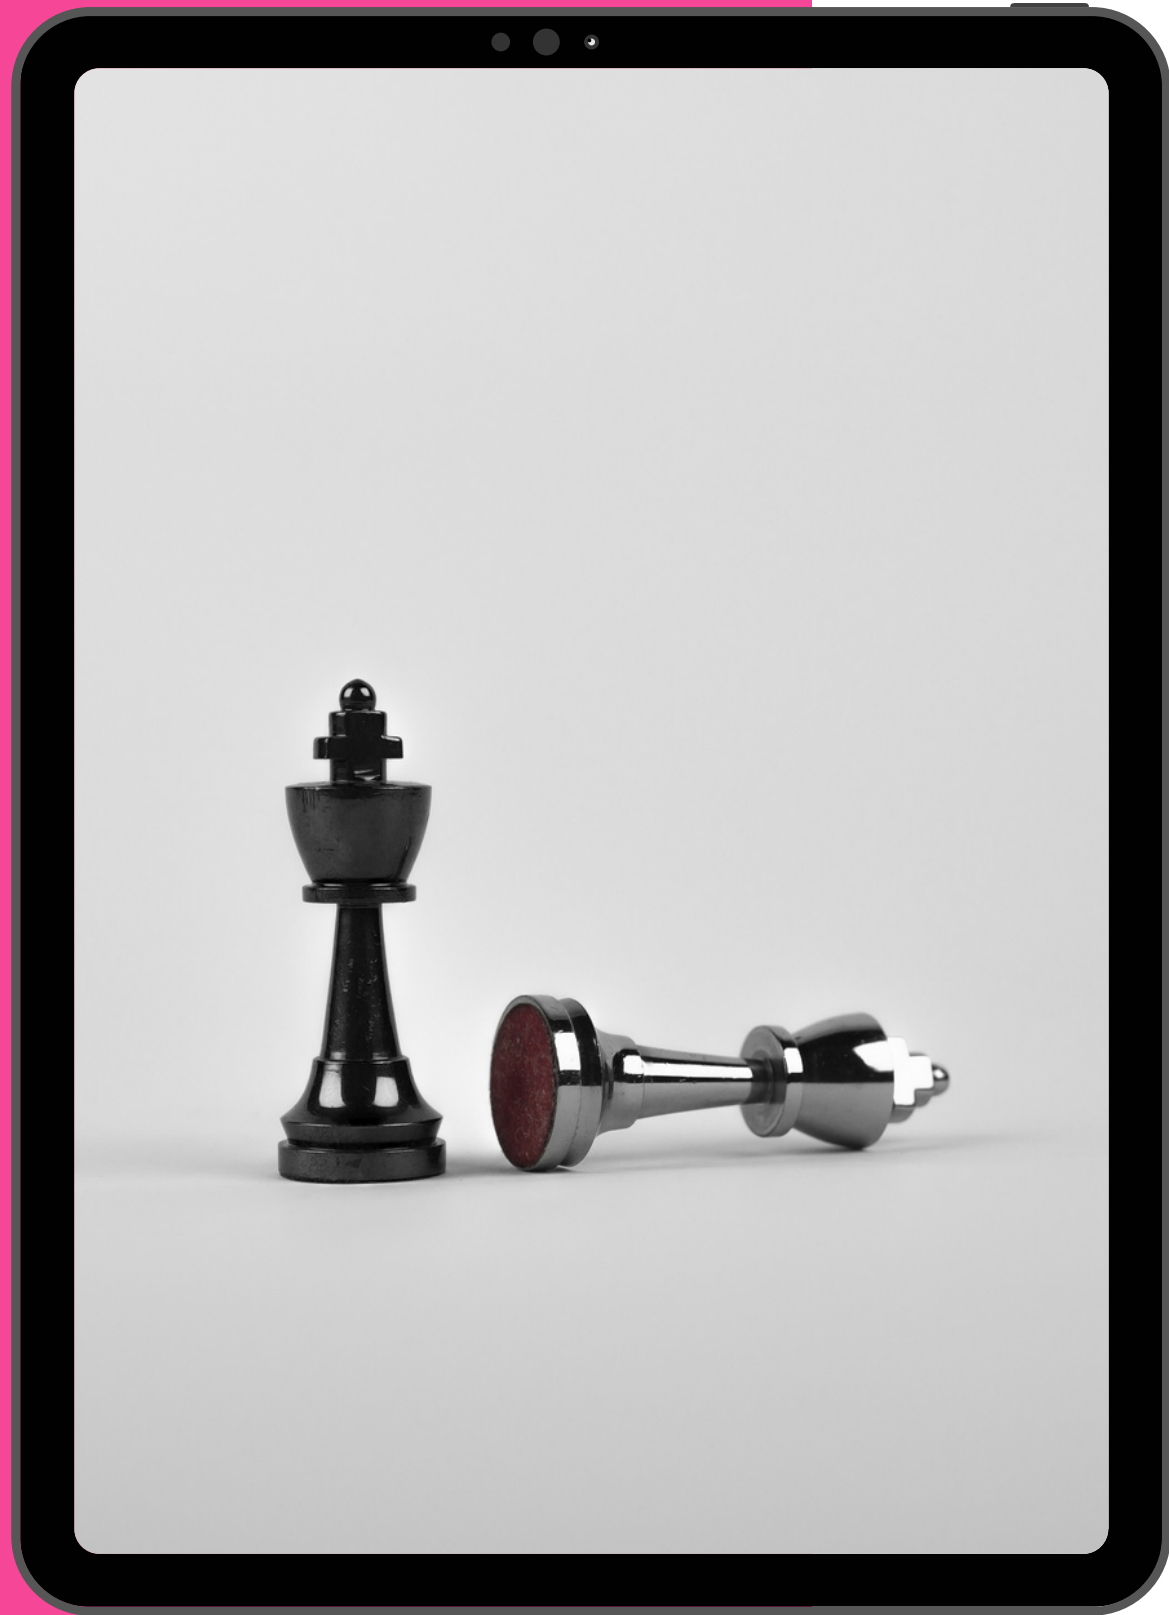

Target Audience

We aim to reach a wide range of audiences, from movie enthusiasts to families, and beyond.

Target Audience

- Individuals who don't have time to choose a movie.
- Individuals tired of watching the same movies repeatedly.
- People who want to discover new films.
- Individuals interested in watching movies of different genres.

✗ Privacy concerns

✗ Lack of
personalization

Advantages/ Unique Points

We're asking users not which movie to watch, but **what** they want to watch.

1

Deeper **personalization** and the ability to establish **emotional connections**

2

Advanced **artificial intelligence algorithms**

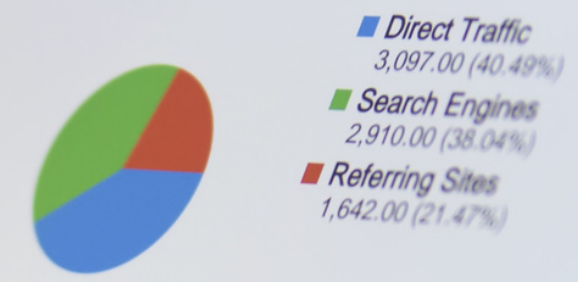

3

Extensive **movie database**
